

# FutureProof Training and Development

## Business Leaders Workshop

Duration: 1 day

### Overview

This workshop is for senior leaders who are shaping their business strategy and organizational model for the future. Against the backdrop of a complex and fast moving business landscape, this programme will help you and your organization prepare and plan for the specific challenges and practical issues you face in building the organization of the future.

### Programme Objectives

- Clarifying the practical implications of the future of work for you and your organization
- Leading for complexity and agility
- Clarification of the main areas of change required to prepare for the future of work
- Scenario planning, readiness assessment and change planning
- Transition to future workplace strategy

### How will you benefit?

- Greater understanding of the impact of the future of work for you and your organization
- Increased confidence and know-how to lead in a complex and agile environment
- Increased awareness of how other organizations have adapted and the key success factors for building the organization of the future
- Development of an organizational strategy for the future of work

### Workshop Content

- Revolution or Evolution – what is the impact of the Future of Work for you ?
- Forces behind the future of work and the practical implications
- Leading the Future I - Strategy, Organization and Work Design
- Leading the Future II - Future workforce and workplace
- Leading the Future III - Culture and Leadership
- Exploring practical examples through 'next' practices and case studies
- Next Steps. Building organizational strategy for transformation towards the organization of the future

### Participants

Senior leadership team members at enterprise and/or business unit level

*"I would wholeheartedly recommend Kevin to any business leaders who are looking to access a unique combination of genuine thought leadership coupled with a considered but practical approach to addressing the complex organizational challenges in today's business environment."*

*Niall Saul, Chairman,  
Symbio Business Solutions*
