

FutureProof Training and Development

Career of the Future Workshop

Duration: 1 day

Overview

The future of work provides both great opportunities and challenges to employees of all generations. This programme explores those opportunities and challenges for individuals and it helps participants identify the skills they will need to be 'career-fit' and to thrive in the changing world of work.

Programme Objectives

- Understanding of the implications of the future of work for current and future employees
- Future career planning and scanning
- Introduction to FutureFit Career development tools and techniques
- Understanding of the key characteristics of the future employee
- Introduction to personal agility
- Roadmap and toolkit for future career success

How will you benefit?

- Understanding the changing world of work - future challenges and opportunities for careers and skills
- Specific understanding of the future of work implications for you and your career
- Develop a futureproof strategy for your career

Training Content

- Revolution or Evolution – what does the Future of Work mean for you and your career?
- The employer perspective – business and organizational models of the future
- Working and leading in a multi-generational workforce
- Leading your career in the Future of Work - practical examples and case studies
- Developing your individual strategy for future of work

Participants

New and experienced employees

“There has never been a better time, never been a more concerning time for employees than in the world of work today ” (Andrew McAfee, The Second Machine Age)
